Alexandria, Va. 22313-1450

Sir:

In response to the 8/27/03 Final Rejection the following is advanced as placing the application in condition for allowance. The claims are radically revised to focus on the features of the invention that distinguish over the art. A two sheet informal drawing set is advanced as a replacement with examiner's approval for the informal drawings filed with the application, that addresses the drawing objections. Approval is asked.
